

## Perryman Company Names Jason Julius as New Chief Financial Officer

**Houston, Pennsylvania, April 29, 2024** - Perryman Company has appointed Jason Julius as the next Chief Financial Officer, effective May 1, 2024.

Julius has served as Director of Operations since 2023. During his time with the company, Perryman has grown as key partner to many OEMs in the aerospace and medical manufacturing markets. Wayne Hauge will transition to Treasurer when Julius assumes the CFO role in May. “Our executive team continues to evolve and prepare for growth. We have a great team of seasoned leadership at Perryman,” said Frank Perryman, President and Chief Executive Officer of Perryman Company.

“Perryman is well positioned to continue double digit growth in the coming years. Jason has been a key part of the operational and financial execution of our overall strategy. Under his financial leadership we will continue our expansion as one of the main sources for titanium products for the aerospace, medical and defense industries,” commented Perryman.

“I am very excited for this opportunity to continue to build upon the company’s success and strategic vision,” said Julius.

Julius joined Perryman in 2012 as Senior Business Analyst and took on a leadership role in Perryman’s medical contract manufacturing business in 2014. In 2021, Julius became a financial and execution lead on the expansion of Perryman’s Titanium Melting Operations along with the Titanium Forging expansion while expanding his portfolio of operational responsibilities. Prior to joining Perryman, Julius held roles in operations and finance at various manufacturing and service organizations. Julius earned a degree in Business at the University of Illinois Urbana-Champaign and a Master of Business Administration from University of Florida.

### **About Perryman Company**

*Founded in 1988, Perryman Company is headquartered in Houston, Pennsylvania, with office locations in Philadelphia, Los Angeles, London, Zurich, Tokyo, and Xi’an. Perryman is an integrated titanium producer from melting of ingot to finished products. The company’s product portfolio includes ingot, bar, coil, fine wire, net shapes, and hot rolled products. The Contract Manufacturing group offers medical device manufacturing in a range of materials including plastics and titanium. A titanium global leader with a commitment to exceptional quality, Perryman supplies and services customers in the aerospace, medical, defense, industrial, infrastructure, and other markets worldwide.*
